## B. ANALYTICAL TABLE

NOTE : The numbers given after each article refer to the pages of the Journal on which they are to be found.

### A

- Administrative Council.* (See *Council*).  
*AET* — *Applicazioni Elettro-Telefoniche*. Participation in the work of the CCITT 154.  
*Afghanistan*. Personnel changes 163, 230.  
 Technical co-operation experts 6.  
*Africa*. — plans ahead, by *J. H. Gayer* and *A. W. Boyle* 202.  
 African Broadcasting Conference 158, 202.  
 African LF/MF Broadcasting Conference 336.  
 East — modernizes radio relay system 275.  
 Electronic computer (An) in the service of African broadcasting planning, by *N. I. Krasnosselski* and *R. Smith* 277.  
 ICAO teams to — 98.  
 Personnel changes 163.  
 Report on the probability of co-channel interference in VHF bands I, II and III in — caused by scatter and reflection from the E and F layers, by *W. Dieminger*, *G. Rose* and *H. U. Widdel* 251.  
 Telecommunications 271.  
 Television 166.  
*African (Central — Republic)*. Personnel changes 163.  
 Radio Regulations, Additional Radio Regulations (Geneva, 1959) 26.  
*Agencies*. Convention on the privileges and immunities of the Specialized — 54, 186, 222.  
*Agreement(s)*. Hungarian-Indonesian Broadcasting — 166.  
 North American regional Broadcasting — (NARBA) (Washington, 1950) 26.  
 Radio and Television — in Eastern Europe 340.  
 Regional — for the European Broadcasting Area (Stockholm, 1961) 26, 125, 266.  
 Special — for use of VHF and UHF by the fixed and mobile services in frontier areas 276.  
 Treaties and international — registered or filed and recorded with the Secretariat of the United Nations 126, 187, 330.  
*Albania (People's Republic of)*. International Telecommunication Convention (Geneva, 1959) 330.  
*Algeria (Democratic and Popular Republic of)*. Algerian-Swiss co-operation on telecommunications 276.  
 International Telecommunication Convention (Geneva, 1959) 222.  
*Alouette*. —, by *G. Jacobs* 116.  
*America (Central)*. Telecommunications expansion 34.  
*America (Latin)*. Plan Sub-Committee meeting, Bogota 190.  
 Technical co-operation experts 337.  
*Anniversary*. ITU Centenary 92.  
 Tenth — of the Federal Republic of Germany television service 161.  
*Antenna(e)*. Calibration horn — at United States observatory 233.  
 Community television and broadcasting — for Chicago 229.  
 Inflatable — 99.  
*Arab (United — Republic)*. Gifts for ITU headquarters 31.  
 Technical co-operation experts 6, 94, 132, 227.  
*Argentine (Republic)*. Adjustment in phase of time signals 371.  
 Personnel changes 66.  
*Article(s)*. Africa plans ahead, by *J. H. Gayer* and *A. W. Boyle* 202.  
*Alouette*, by *G. Jacobs* 116.  
 Anechoic chamber (The) of the CCITT laboratory, by *P. Castagné* 68.  
 Colour television modulation for a transmission through artificial satellite, by *G. Valensi* 209.  
 Echo control problem (The) in satellite communications, by *L. C. Hunter* and *J. A. Stewart* 45.  
 Electronic computer (An) in the service of African broadcasting planning, by *N. I. Krasnosselski* and *R. Smith* 277.  
 Electronic telephone exchange (An) using magnetic couplers for switching, by *H. Pausch* 167.  
 First flight toward Mars (The), by *A. Kachel* 41.  
 Fourth World Meteorological Congress (The), by *M. Joachim* 216.  
 Golden Jubilee of URSI — XIVth General Assembly in Tokyo, by *R. L. Smith-Rose* 379.  
 International Conference on Satellite Communication, London, by *Y. Y. Mao* 77.  
 National or regional ground stations? by *D. R. MacQuivey* 285.  
 Parkes 64-metre radio telescope (The), by *H. C. Minnett* 383.  
 Plan Sub-Committee for Asia meeting, Geneva, February 1963, by *S. A. Sathar* 347.  
 Popov and the birth of radio, by *N. Tchistiakov* 172.  
 Problems and promise of stationary satellite communications, by *G. D. Wallenstein* 342.  
 Recent large radio telescopes, a survey, by *J. H. Oort* 313.  
 Report on the probability of co-channel interference in VHF bands I, II and III in Africa caused by scatter and reflection from the E and F layers, by *W. Dieminger*, *G. Rose* and *H. U. Widdel* 251.  
 Scientific research and telecommunications, by *M. Ponte* 139.  
 6th Plenary Meeting (The) of the COSPAR and the 4th International Space Science Symposium, Warsaw, 3-12 June, 1963, by *M. B. Sarwate*, *J. Ziolkowski* and *Y. Y. Mao* 356.  
 Some technical factors affecting the feasibility of direct broadcasting from earth satellite, by *E. T. Martin* and *G. Jacobs* 11.  
 S-66, ionospheric research satellite, by *G. Jacobs* 321.  
 Technical results (The) of the CCIR's Xth Plenary Assembly, by *M. Joachim* 235.  
 Telecommunications in the Togolese Republic... by *H. Challet* 353.

- Telecommunication system of Israel, by *W. Fondiller, M. E. Berman and M. J. Guy* 101.
- Television in developing countries, its problems and potential contributions, by *H. R. Cassirer* 374.
- Telex and general telegraphy, competition and integration, by *T. Perry* 145.
- Xth Plenary Assembly of the CCIR, a report, by *E. Metzler* 177.
- The new ITU, a plan for the reorganization of the Union, by *G. C. Gross* 305.
- XIIIth International Astronautical Congress, a report, by *J. H. Gayer and Y. Y. Mao* 19.
- Thoughts on legal provisions to improve and safeguard space communications, by *J. Iványi* 73.
- Wealth of nations and telephone density, by *A. Jipp* 199.
- Will space be open to piracy? by *J. Persin* 112.
- Asia.** Asian training course in educational television 34.
- Plan Sub-Committee for — meeting, Geneva, February 1963, by *S. A. Sathar* 347.
- Plan Sub-Committee meeting 58, 91.
- Assembly.** (See Conference).
- Astronautics.** XIIIth International Astronautical Congress, a report, by *J. H. Gayer and Y. Y. Mao* 19.
- Australia (Commonwealth of).** Adjustment in phase of time signals 371.
- Convention on the privileges and immunities of the Specialized Agencies 54.
- Pacific telephone cable link 370.
- Parke's 64-metre radio telescope (The), by *H. C. Minnett* 383, 320.
- Radio telescope finds magnetic fields 39.
- Austria.** Television rebroadcasting in the Austrian Alps 165.
- Autospec.** Error correcting equipment in Norway 232.

## B

- Badalov, Ashot.** Telepersonality 389.
- Bahamas (Islands).** North American Regional Broadcasting Agreement (NARBA) (Washington, 1950) 26.
- Bahrain.** New transmitting station 134.
- Belgium.** — United Kingdom submarine cable 35.
- Special Agreement for the use of VHF and UHF by the fixed and mobile services in frontier areas 276.
- Ben-Menachem Ch.** Correspondence 327.
- Berman M.E.** Telecommunication system of Israel 101.
- Bielorussian Soviet Socialist Republic.** Regional Agreement for the European Broadcasting Area (Stockholm, 1961) 26.
- Bishop, Harold (Sir).** Retirement 163.
- Black, Eugene.** Mr. — named Director at ITT 232.
- Blow W.** Obituary 9.
- Board.**
- International Frequency Registration — (IFRB).** — Association football team 14.
- officers for 1963 3.
- seminars 90, 132, 191.
- Technical Assistance — (TAB).** An ITU expert appointed Assistant Resident Representative in Pakistan 272.
- Bolivia.** Technical co-operation 62.
- Books. Bibliographic notes on books received by the Library :**
- Automobile accidents and their treatment in the German Federal Post System, by *F. Koller and M. Sohn* 25.
  - Basic junction devices and circuits, by *R. H. Mattson* 359.
  - Carrier communication over power lines, by *H-K. Podszeck* 390.
  - Carrier frequency news transmission over HT circuits, by *H-K. Podszeck* 50.
  - Cartographic analysis of telecommunication maps, by *G. L. Greenberg* 359.
  - Communication : a logical model, by *D. Harrah* 182.
  - Economic development (The) of Kenya 325.
  - Electronics physics of solids for use by engineers, by *G. Fournet* 25.
  - Elements of an acoustical theory of the articulation of vowels, by *G. Ungeheuer* 262.
  - Elsevier's dictionary of automatic control, by *W. E. Clason* 359.
  - Elsevier's dictionary of general physics, by *W. E. Clason* 119.
  - Encyclopaedic dictionary of physics, by *J. Thewlis, D. J. Hughes and A. R. Meetham* 81.
  - High-frequency antenna, by *G. Z. Eisenberg* 182.
  - High-quality sound production and reproduction — Sound studio and outside broadcasting practice, by *H. B. Hadden* 82.
  - Hyperfrequencies — Circuits and wave propagation, by *R. Rigal* 263.
  - Introduction to automatic control systems, by *R. N. Clark* 121.
  - Introduction to linear systems analysis, by *R. G. Brown and J. M. Nilsson* 119.
  - Introduction to the physics of the transistors, by *W. W. Gärtner*.
  - Johann von Herrefeldt and the idea of the UPU, by *L. Kämmerer* 220.
  - Junction transistor circuit analysis, by *S. S. Hakim* 121.
  - Long-term telephone planning, by *Z. Rajalowicz* 262.
  - Measurements (The) of the parameters of antennae and antenna feeders, by *A. Z. Fradin and E. V. Ryzhov* 80.
  - Modernization of the Tunisian telecommunication network, by *M. Mili* 80.
  - Network analysis and synthesis, by *F. Kuo* 51.
  - Noise in electrical circuits, by *F. N. H. Robinson* 25.
  - Open-wire carrier telephone transmission, by *C. G. Boye* 118.
  - Organization of broadcasting, by *J. F. Castro* 50.
  - Physics course, Vol. III : Waves and corpuscles, by *M. Jouguet* 119.
  - Planning of local exchange networks, by *H. Kremer*.
  - Pocketbook on information processing, by *K. Steinbuch* 120.
  - Radio amateur's handbook (The) 40th edition 295.
  - Radio and line transmission, Vol. I, by *G. L. Danielson and R. S. Walker* 262.
  - Radio and line transmission, Vol. II, by *G. L. Danielson and R. S. Walker* 295.
  - Radio surface waves, by *H. M. Barlow and J. Brown* 25.
  - Research and testing, by *H. Moser* 220.
  - Rules and formation of career in the field of the German Federal PTT Administration, by *Schenke* 220.
  - Servicing transistor radios and printed circuits, by *L. Lane* 151.
  - SIAM series (The) in applied mathematics, by *J. Riordan* 118.
  - Single sideband for the radio amateur 183.
  - Six-language dictionary of automation, electronics and scientific instruments, by *A. F. Dorian* 325.
  - Social establishments (The) of the German Federal Post Administration, by *F. W. Otto* 220.
  - Space radio communications, by *G. M. Brown* 81.
  - Study of electric circuits (The), Vol. I : General analysis procedures, by *J. Lagasse* 82.
  - Supplement to the Elsevier's dictionaries of electronics, nucleonics and telecommunications, by *W. E. Clason* 325.
  - Technology of electronics — Telecommunication equipment, by *J. Mornand* 151.
  - Television receiver servicing, Vol. II : Receiver and power supply circuits, by *E. A. W. Spreadbury* 118.

*Union.*

*African and Malagasy* — (*UAM*). Extension of the international telecommunication network 303.

*African and Malagasy Posts and Telecommunications* — (*UAMPT*). Participation in the work of the CCIR and the CCITT 361.

*Eastern African Telecommunications* — (*EATU*). New regional telecommunications organization 339.

*International Astronomical* — (*IAU*). Uniform time and constant frequency for 1963 34.

*International Scientific Radio* — (*URSI*). Golden Jubilee of — XIV General Assembly in Tokyo, by *R. L. Smith-Rose* 379.

Uniform time and constant frequency for 1963 34.

*International Telecommunication* — (*ITU*). Administrative Council : XVIII Session 130, 159.

African Broadcasting Conference 158, 202.

African LF/MF Broadcasting Conference 336.

Calendar of —'s conferences and meetings 27, 55, 86, 127, 155, 187, 223, 267, 296, 331, 362, 394.

CCIR (See *International Radio Consultative Committee*)  
CCITT (See *International Telegraph and Telephone Consultative Committee*)

Expert appointed Assistant Resident Representative of TAB in Pakistan 272.

Gifts for — headquarters 5, 31, 60, 93, 133, 324.

IFRB (See *International Frequency Registration Board*)

Invitations accepted to conferences or meetings external to the — 26, 54, 85, 125, 154, 187, 223, 267, 296, 331, 362, 394.

— Centenary 92.

List of recent and forthcoming publications of the — 28, 56, 87, 128, 156, 188, 224, 268, 297, 332, 363, 395.

*Oscar* satellite exhibit 59.

Panel of experts : 2nd session 191, 226.

Plan Sub-Committee for Asia meeting 58, 91. Article by *S. A. Sathar* 347.

Radio amateurs at — headquarters, by *W. Menzel* 2.

Radio amateurs Convention (*Hamfest*) 368.

Seminar on microwave systems and techniques, Mexico City 192.

Space Radiocommunication Conference 300, 334, 366, 369.

Technical co-operation 6, 32, 33, 61, 62, 94, 95, 132, 159, 160, 192, 193, 227, 271, 300, 301, 336, 337, 368, 369.

The new —, a plan for the reorganization of the Union, by *G. C. Gross* 305.

Training at the — 193.

Vacant posts 330, 393.

Visitors : FCC Chairman 91 ; Mr. Nabakele (Uganda) 227 ; Mr. Richardot (Haiti) 227.

United Nations (The) and the Conference on Space Communications 270.

— of Soviet Socialist Republics (*USSR*). *Kosmovision* 161. Moscow-Washington line 303.

XIXth Scientific Session of the A. S. Popov Society 231. Radio astronomy 97.

Regional Agreement for the European Broadcasting Area (Stockholm, 1961) 26.

Telephone circuit London-Moscow 275.

Television : 134 ; Moscow-Bucharest-Sofia 97 ; Prague-Moscow 303 ; Stereoscopic colour television 339.

*United Kingdom of Great Britain and Northern Ireland.*

Adjustment in phase of time signals 371.

Advanced automatic landing equipment 98.

BBC to cover the — with 625-line service 96.

Belgium — submarine cable 35.

Cables across the North Sea 166.

*Civic*, telephone exchange in Hull 162.

Co-operation in satellite communications 95.

Controlled-delay sound-system for St. Paul's 302.

Electronic telephone exchanges 35.

First International Telemetering Conference to be held in London 275.

International Conference on Satellite Communications,

London, by *Y. Y. Mao* 77.

London-Paris STD 137.

*Long Lines*, world largest cable ship lays world's longest cable 337.

Nine-millionth telephone and a new exchange 272.

Pacific telephone cable link 370.

Personnel changes 9.

Radar, new technique 304.

Radio telescope at Cambridge 274.

Retirements : Miss E. Perry (*GPO*) 196 ; Sir H. Bishop (*BBC*) 173.

Satellite data station 161.

Scientific fishing owing to television 341.

*Secar*, Anglo-French technical agreement for advanced secondary radar system 339.

Switchboard for blind operators 164.

Telecommunication expansion 134.

Telephone circuit London-Moscow 275.

Television during the cold 99.

The duke of Edinburgh and cables 194.

Tickets for the Moon ? 337.

Transatlantic telephone cable USA — 194, 337.

Transistors "under the dryer" 341.

— USA telephone calls to be speeded 97.

VHF radiotelephone network for Scottish lighthouses 230.

*United States of America (USA)*. Adjustment in phase of time signals 371.

Balloon-borne telescopes radio-controlled, to take astronomical data 276.

Cable — Panama Canal Zone 166.

Calibration horn antenna at — observatory 233.

Colour television on black and white sets 165.

Communication units for weather satellite (*Nimbus*) 341.

Communications system along the Colombia River basin 274.

Community television and broadcasting antenna for Chicago 229.

Conference on precision electromagnetic measurements 1964 340.

Correcting errors in radar distance measurements 372.

Duobinary coding 99.

Earth-space-earth laser links 233.

*E-A-X*, electronic telephone exchange 8.

Electronic nurse for critically ill patients 276.

Equipment for Vancouver-Hawaii telephone link 136.

Fighting forest fires 95.

Frequency and time transmission 36.

Hearing things . . . 165.

Infrared detector 371.

*Long Lines*, world's largest cable ship lays world's longest cable 337.

Marine radiobeacon system revised 338.

Microminiature thin-film amplifier 340.

Moscow-Washington line 303.

Most powerful laser in the world ? 341.

Mr. Black named Director at ITT 232.

NSB to publish national radio science journal 369.

Path for public opinion to Government 97.

Radar to see winds aloft in clear air 232.

Rotatable waveguide aids astronomers 98.

Satellite communications : *Relay I* and *II* 163 ; *Syncom I* and *II* 229.

Satellites in the service of medicine 276.

Satellites present and future 37, 97, 339.

Second submarine telephone cable between France and the — 303.

Space-suit communication system for lunar astronauts 304.

Star temperatures found low 372.

Subminiature heather-cathode triode 39.

Television camera tube boosts telescope power 100 times 165.

Television programme relayed by laser 197.

- Telex service — -Paraguay 339.  
*Telscom*, antenna system for telemetry, surveillance and communication functions 39.  
*Telstar* 136, 334.  
*Thyrses I*, satellite built by schoolboy 137.  
*Tiros* weather satellites : 270 200 television pictures 373.  
 Transatlantic telephone cable — -United Kingdom 194, 337.  
 Transmission through layers of rock 97.  
 Tube for communications near infrared light frequencies 165.  
 United Kingdom — telephone calls to be speeded 97.  
 — Japan private radio channels 137.  
 — station to link satellites with Japan 193.  
 Visit to the ITU of FCC Chairman 91.  
*Upper Volta (Republic of)*. Television 166.

## W

- Wallenstein G. D.* Problems and promise of stationary satellite communications 342.  
*Widdel H. U.* Report on the probability of co-channel interference in VHF bands I, II, and III in Africa caused by scatter and reflection from the E and F layers 251.

## Y

- Yemen*. Personnel changes 66, 195.  
*Yugoslavia (Federal People's Republic of)*. Radio Regulations, Additional Radio Regulations (Geneva, 1959) 186.

## V

- Vacant posts*. ITU — advertisements 330, 393.  
*Valensi, Georges*. Colour television modulation for a transmission through artificial satellite 209.  
*Vatican City State*. Broadcasting station 228.  
 Two telephones per inhabitant ! 301.  
*Vaursat, Serge T.* Correspondence 263.  
*Venezuela (Republic of)*. Development of telecommunication 61.  
 Technical co-operation experts 337.

## Z

- Ziołkowski J.* 6th Plenary Meeting (The) of the COSPAR and the 4th International Space Science Symposium, Warsaw 3-12 June 1963, 356.  
*Zworykin, Vladimir K.* Telepersonality 152.
